

BLACK EAGLE® ADVENTURE 2.0 GTX

low / black-citrus
Art. No. 330021

Microfiber/textile, waterproof and extremely breathable with
GORE-TEX® Extended, leg height 9 cm, sole 018

Available sizes UK 6 – 12, Extra large sizes UK 13 / 14 / 15

330021

Upper Material

Microfiber/textile combination

Inner Lining

GORE-TEX Extended, 3-layer GORE-TEX laminate, waterproof and highly breathable. Abrasion resistant lining with optimised climate comfort, ideal for changing indoor and outdoor use.

Insole

Comfortable, cushioning, moisture repellent, anti-bacterial. Separate heel shape for good cushioning and foot insertion. "AIRFLOW" channels.

Anti Slip

Excellent grip on a variety of terrains, even in the cold due to specific outsole design and use of special rubber.

Running sole

Made of rubber; oil, petrol and heat resistant as well as cold insulating, non-marking and self cleaning

Midsole

Elastic two-layer PU midsole, lightweight, cushioning effect. Stabilization zone for optimal pressure distribution on uneven terrain.

Durable Sole

Rubber mixture for long durability.

Dynaframe

HX design element made of tensile and tear-resistant PU material. Perfectly covers the midfoot area and transfers traction forces of the lacing elements. The heel clip stabilizes the rear foot.

Stabilizer

Asymmetrical PU for stabilizing the heel.

Smart Lacing

Smooth and pressure free adjustment for the shoe to the foot, quick lock and lace pocket.

Others

Low weight, closed lacing system with quick closure and lace pocket, additional tip protection, metal-free, sole is very non-skid in wet and cold conditions, durable good cushioning effect

Insole

The new insole made of abrasion-resistant polyester fabric on open-cell, breathable and quick-drying polyurethane foam, washable up to 30° C.

Low density midsole

Directly injected midsole made of lightweight PU foam connects the shaft inseparably to the sole. Highly elastic and durable cushioning.

Anti Slip

Excellent grip on a variety of terrains, even in the cold due to specific outsole design and use of special rubber.

Outsole

Abrasion resistant and grippy rubber outsole. Perfect combination of stable central cleats and grippy lamellar cleats in the edge region. Coloured X-Zone for stabilization of the mid area and main roll-over area.

High density midsole

Stabilizes the shoe and guides the foot during the rolling motion, prevents unevenness (stones, etc.) from pressing through to the foot.
